Overview of Sustainable Communities

The Sustainable Communities Act of 2010 established a framework for reinvestment and revitalization of Maryland’s existing communities creating a single, locally designated geographic focus area. Since that time the “Sustainable Communities” designation has provided an efficient means of targeting scarce public and private resources for multiple State agency investments and prioritizations.

Purpose or Renewal and Streamlined Application

The Sustainable Communities (SC) designation must be renewed every five years. This renewal application provides an opportunity for local governments to update their existing SC action plan and report on the accomplishments made over the past five years. Through the renewal process, local governments can request additional technical assistance and highlight any areas from the original action plan for which progress must still be made.

Application Eligibility and Threshold Requirements

Local governments (municipal or county) are eligible to apply.

Eligible applicants are to reconvene their **Sustainable Communities Workgroup** to discuss the accomplishments and challenges of their Sustainable Community Action Plans in addition to any update they may like to make to the Action Plan. The applicant may choose to select new members to participate in the Workgroup. The purpose of this workgroup is to continue and reinforce working relationships and collaborations among local governmental departments and better align community development priorities and strategies. In addition, this is an opportunity to assess if the Workgroup would like technical assistance from State government agencies to implement certain action items or develop strategies to address local challenges.

Threshold Requirements

All Sustainable Community applications must meet the following threshold requirements:

1) Sustainable Community Area boundaries must be entirely within a Priority Funding Area (PFA) and should be an area in need of renewal and reinvestment that would benefit from a targeted long-term strategy.

Applicants can verify Priority Funding Area boundaries by visiting the MDP website at:

<http://www.mdp.state.md.us/OurProducts/pfamap.shtml>

2) The proposed Sustainable Community is within or near a town center or transportation center, or there is a need for financing assistance for small businesses, nonprofit organizations or microenterprises;

3) The updated Plan must be consistent with other existing community or comprehensive plans;

4) A Sustainable Communities Workgroup is re-convened and a roster of members should be provided with the application.

Applications that do not meet these threshold requirements will not be considered.

Application Submission and Evaluation

The Sustainable Community application will be evaluated based on thorough assessment of strengths and weaknesses and how well desired outcomes, strategies and action steps are connected to the local conditions.

The first page of the electronic application is the Table of Contents. This should also serve as a checklist and be used to provide corresponding tabs.

Please submit all materials (application, maps, pictures, and/or shapefiles) via email to the Sustainable Communities project management team.

Incomplete applications will not be accepted.

Deliver Sustainable Community Applications via email:

Subject Line: Sustainable Community Application

To: Carter Reitman

carter.reitman@maryland.gov

Copy: Olivia Ceccarelli-McGonigal

olivia.ceccarelli@maryland.gov

Site Visits. Follow-up Discussion, Technical Assistance

Attendance at a minimum of one application consultation session or training is mandatory for all applicants. Consult with Carter Reitman at 410-298-5849 or by email at carter.reitman@maryland.gov if you would like to schedule a meeting.

If requested, the Department can provide technical assistance to local governments to prepare their Sustainable Communities applications. When needed, the Department may offer technical assistance, in collaboration with the Maryland Department of Planning, to local governments with limited capacity to prepare their Sustainable Communities applications.

During the application review process, the review team may make site visits and/or hold meetings with applicants. In addition, applicants may be contacted by the Department for follow-up discussions prior to awards.

Approval

Approval of applications will be made by the Governor's Smart Growth Coordinating Committee on the recommendation of an inter-agency review team. The review team is coordinated by the Department of Housing and Community Development. The Governor's Smart Growth Coordinating Committee can defer the approval of a Sustainable Communities renewal to the Governor's Smart Growth Subcabinet.

All questions related to the application, please contact Olivia Ceccarelli-McGonigal at 410-209-5826 or by email at olivia.ceccarelli@maryland.gov or your regional project manager, found at this link: <https://dhcd.maryland.gov/Communities/Documents/SRP/PM-Map-ContactInfo.pdf>

RENEWAL APPLICATION INSTRUCTIONS

The Sustainable Communities application for renewal has **three** sections:

A. Contact information, General Information, Organizational Capacity:

In this section, applicants are asked to update their contact information, provide information about demographic shifts over the past five years, discuss the strengths and weaknesses of their Sustainable Communities workgroup and share any technical assistance needs the workgroup may have.

B. Report on accomplishments over past five years:

The report is an opportunity to reflect on any accomplishments achieved in the Sustainable Community area. It is a tool used to evaluate if the SC applicant achieved its intended outcomes, implemented the strategies initially envisioned, and identify what resources were used. Renewal applicants are encouraged to discuss how priorities, actions, and objectives were or were not achieved across the six elements listed on the previous page (v), including how any of the elements may have interrelated during the five initial years of SC designation.

C. Sustainable Communities Action Plan Update:

The Sustainable Communities Action Plan has been revised so that it is less time consuming and focused on developing a strategic implementation plan. Renewal applicants are encouraged to use their previous Sustainable Communities applications as a basis for their updated Action Plan. You may identify which weaknesses have not yet been addressed or which strategies have not yet been implemented. Include your revitalization priorities for the next five years, basing them on your community's current strengths and weaknesses.

SUSTAINABLE COMMUNITIES PLAN ELEMENTS

The table below provides a description of each subject area/element of the Sustainable Communities Action Plan. Included are examples of common strengths and weaknesses within each subject area and the types of projects that might be implemented to address said strengths and weaknesses.

ENVIRONMENT: Describes projects involving the natural environment, our use of natural resources, and our relationships to the natural environment.

This category includes projects focusing on (but not limited to): the quality of land, water, and air; watershed maintenance and preservation; tree canopies and green spaces; climate change mitigation and adaptation; energy conservation; green infrastructure; stormwater infrastructure and management; water and sewer capacity; recycling, pet waste, and organic waste programs; the mitigation of environmental hazards; and parks and recreation.

ECONOMY: Describes projects centered on economic growth and management.

This category includes projects focusing on (but not limited to): business attraction & retention; improving and maintaining the health of business districts, downtowns, and main streets; commercial vacancy reduction; workforce attraction and retention; employment/job training; marketing, branding, and tourism; improving or creating economic impact of cultural and historic assets; providing technical and financial assistance to businesses; commercial building acquisition, rehabilitation and/or adaptive re-use; and creating a sense of place and vibrancy through streetscaping and beautification.

TRANSPORTATION: Describes projects involving the way people in your community get from place to place.

This category includes projects focusing on (but not limited to): access to transit corridors; pedestrian safety and accessibility; sidewalks; alternative modes of transportation, such as bikeways and trails; public transit, such as bus and rail; carpooling; proximity to transportation centers; parking; and road conditions.

HOUSING: Describes projects involving the homes in which people in your community live and which make it easier for them to find and stay in a place to call home.

This category includes projects focusing on (but not limited to): affordability; increasing homeownership; increasing rental housing; diversifying the kinds of housing available; improving housing conditions (interior or exterior); housing programs; aging in place; preventing foreclosures; and reducing residential vacancies.

COMMUNITY HEALTH & QUALITY OF LIFE: Describes projects concerned with public health, community culture, and the day-to-day life of community residents.

This category includes projects focusing on (but not limited to): improvement of public safety and the reduction of crime; libraries; educational facilities and programs; health and wellness facilities and programs; senior facilities and programs; youth facilities and programs; facilities and programs for the disabled; civic amenities, access to quality food options; collaborations with faith-based organizations; arts and entertainment education; and homelessness prevention, services, and facilities.

LOCAL PLANNING & STAFFING CAPACITY: Describes projects concerned with a local government's ability to plan for the community's future and to meet the current needs of residents.

This category includes projects focusing on (but not limited to): updating zoning ordinances or land use; updating municipal/local policies, taxes, fees, etc.; increasing local government staff capacity; and updating planning documents like sector plans or comprehensive plans.

Additional Guidance for Developing the Sustainable Communities Action Plan

III. SUSTAINABLE COMMUNITY ACTION PLAN UPDATE

The Sustainable Community Action Plan (SC Plan or Plan) is meant to be a multi-year investment strategy – a strategic set of revitalization initiatives and projects that local partners believe will increase the economic vitality and livability of their community, increase prosperity for local households and improve the health of the surrounding environment. The Plan should be flexible enough to be updated regularly and renewed every five years as the community envisions new goals. The priority initiatives and projects identified in the action plan are your priorities for improving the livability of community places -- residential, commercial, or other public or private properties – and the sustainability of new work, retail, recreational and housing opportunities for residents. At the same time, the plan should only discuss the strategies that will impact the geographic area targeted for revitalization, so that resources have the best opportunity to have the intended effect. These projects can also be designed to reduce the environmental impact of the community through water and energy resource conservation and management strategies. In this way, the Plan can be a road map for local stakeholders as well as State agencies to work together to create a more livable and sustainable community.

All communities submitted an SC Plan when the community earned its original designation. Some applicants may want to take advantage of the designation renewal process to outline new strategies, set new priorities or reaffirm existing strategies for their Sustainable Community. Changes to SC Plans may reflect changes in external factors affecting the community or changes in the priorities of the applicant.

Action Plan Guidance

The Action Plan section has been broken down into the same six categories as the Comprehensive Assessment section of this document. These parts address key components of your Sustainable Community Action Plan. Follow the guidelines below to fill out the matrix.

- 1) **For each section, pinpoint essential strengths and weaknesses of your community.** Example Transportation: Strength - Good sidewalk connectivity. Weakness - Insufficient amount of downtown parking.
- 2) **Based on those strengths and weaknesses, formulate specific outcomes that address the most pressing issues or greatest potentials. Include a means of measuring the success of said outcome.** Example Economy: Outcome – Expand broadband fiber optics in Town. Progress Measure - Linear measurement of fiber laid and number of residential and business connections.
- 3) **After defining the outcomes, list detailed strategies (break down to several action steps if needed) that will serve as the means to achieve those goals.** Example Economy: Strategy - Increase number of Town sponsored events ☐ Develop with community input, a series of weekend events that the Town could host.
- 4) **List potential partners that can support the successful implementation of these strategies through different types of resources.** Example Economy: DHCD (Community Legacy program), Small Business Administration (Services and financial assistance) etc.

CHECKLIST AND TABLE OF CONTENTS

APPLICANT: County Commissioners of Calvert County

NAME OF SUSTAINABLE COMMUNITY: Calvert County (Unincorporated areas: Town Centers of Dunkirk, Prince Frederick, Lusby, and Solomons; Incorporated Municipalities: Town of Chesapeake Beach, and Town of North Beach

Please review the checklist of attachments and furnish all of the attachments that are applicable. Contents of the application should be tabbed and organized as follows:

- Section A - Sustainable Community Renewal Applicant Information**
 - [Applicant Information](#)

- Section B – Sustainable Community Renewal Action Plan Update (Matrix)**
 - [Action Plan](#)

- Section C – Sustainable Community Renewal Report (Projects, Strategies and Partners)**
 - [Part 1: Qualitative Assessment](#)
 - [Part 2: Comprehensive Assessment](#)
 - [Competitive Funding](#)

- Section D – Sustainable Communities Workgroup Roster**

- Section E – Signature Letter (acknowledging Disclosure Authorization and Certification)**
 - [Disclosure Authorization](#)

- Section F – Additional Files:** The following contents should be included:
 - If requesting a boundary modification, map in pdf format and a GIS shapefile of the proposed Sustainable Community boundary
 - Photos (jpeg format) of your aforementioned accomplished projects of the last five years

Sustainable Communities Renewal Application - Section A

Sustainable Community Boundary and Description

- (1) Are you requesting any changes to your Sustainable Community boundary? Describe why or why not?

No. We would like to continue to focus on these areas for the next five years.

- (2) If yes, Include the following in as an attachment:

- a. PDF or JPEG of modified Sustainable Communities boundary map,
- b. GIS shapefiles of modified Sustainable Community boundary (mapped to the parcel boundary),

- (3) Approximate number of acres of entire SC Area: 4,366

- (4) Existing federal, state or local designations:

Main Street Maple Street

National Register Historic District Local Historic District Arts & Entertainment District

State Enterprise Zone Special Taxing District BRAC State Designated TOD

Other(s): Southern Maryland National Heritage Area, Target Investment Zone: Town of Chesapeake Beach, Town of North Beach, and Solomons Town Center, Federal Opportunity Zone: Portion of Lusby Town Center, United States Department of Agriculture Rural Development Designation

- (5) Describe the SC Area's current demographic trends (with respect to age, race, household size, household income, educational attainment, number of housing units, or other relevant factors). How have demographics changed in the last five years?

Data from the U.S. Census Bureau's American Community Survey for the years 2013 and 2017 are shown in the tables below. It is important to note that the geographic area of the U.S. Census Bureau's Census Designated Places for Dunkirk, Lusby, and Prince Frederick and the municipality of Chesapeake Beach is larger than their respective Sustainable Community designated area.

CDP = Census Designated Place

Organizational Structure, Experience and Public Input:

- (1) Describe any changes to the Applicant's organizational structure. Specifically, how has membership of the Sustainable Communities Workgroup changed in the last five years? Who are/were the leaders, and how will/did the Workgroup advisor or staff manage implementation of the SC Area Plan?

The Sustainable Communities Workgroup described in the 2012 application included an internal group and an external group. The internal group included representatives from the county departments of Economic Development, Finance & Budget, General Services, Planning & Zoning, and Public Works, and municipal staff from Chesapeake Beach and North Beach. Due to restructuring of the county departments in 2017 and expansion of membership, the workgroup includes those departments plus the Department of Parks and Recreation. The co-leaders of the workgroup were the department of Planning & Zoning and Finance & Budget. The workgroup is now led by the Office of the County Administrator, with guidance from the Department of Planning & Zoning. The Department of Finance & Budget takes the lead for coordinating the funding of projects through the Capital Improvements Program (CIP). For Chesapeake Beach, the Town Administrator has the lead for implementing Sustainable Community projects. For North Beach, the Town Clerk has the lead for implementing Sustainable Community projects.

- (2) What have been the strengths and challenges of the capacity of the Sustainable Communities Workgroup with respect to implementation of the SC Plan?

Strengths:

- Diversity of group members
- Experience working with state grant programs
- Experience working with capital projects
- Cooperation among the county and municipal staffs
- Annual Capital Improvements Program (CIP) process

Challenges:

- Other priorities competing for staff time
- Competition with other local governments for grant funding
- Convening the external group members

- (3) How did residents and other stakeholders in the community provide input to the Sustainable Communities Action Plan update? On which existing local plans (comprehensive plans, economic development plans, sector plans, etc.) is the Sustainable Communities Action Plan based?

The Sustainable Communities Action Plan update is based upon local plans, including but not limited to the county's and municipalities' comprehensive plans; the Calvert County Land Preservation, Parks, and Recreation Plan; and the Calvert County Economic Development Strategic Plan Update. These plans have been or are in the process of being updated.

Calvert County's Department of Planning & Zoning led the county government's effort to update the Calvert County Comprehensive Plan, which had last been updated/amended in 2010. The Calvert County Comprehensive Plan is the county's official policy document that sets forth a vision of the county's future. The plan serves as a guide for future planning to be implemented through local laws and public investments over the next 20 to 25 years. After a multi-faceted public participation process, the Calvert County Planning Commission recommended that the Board of County Commissioners adopt the plan. The Board adopted the

Sustainable Communities Renewal Application - Section A

Comprehensive Plan in August 2019. In 2022, the Comprehensive Plan was amended by the Board to reduce or remove the future expansions of four of the designated Town Centers.

The Chesapeake Beach Comprehensive Plan's purpose is to bring about the careful development of the community and the conservation of what is most exceptional about it. Upon its adoption, this Plan guides public and private decisions on the use of land, protection of the environment, improvement of infrastructure, and other matters related to growth and development through the year 2040. Seeking community input, the Planning Commission conducted multiple public workshops beginning in Fall 2018. Through the winter of 2019, the Town held working sessions to reflect on what was learned and to draw nearer to a broad vision that could sum up the insights and ideas that would ultimately shape this Plan. They also oversaw a survey of Town residents. Through the Summer of 2021 the Commission conducted additional work sessions as the draft plan came together. The Planning Commission's public hearing was held on November 9, 2021, and then on January 26, 2022, the Commission voted unanimously to approve a resolution transmitting it to the Mayor and Town Council with a recommendation for adoption.

The Comprehensive Plan for North Beach is the official policy document that provides for private and public decisions to be made concerning development and future growth during the planning period. It focuses on the town's physical development; addresses public policy for government spending and provision of public services; and serves as a guide to be used when evaluating proposed projects and drafting and implementing land use regulations and ordinances. It is intended to assist the Town in managing growth in the built environment while preserving the natural environment. The North Beach Planning Commission has started the process to update the 2012 Town of North Beach Comprehensive Plan. One of the first steps for updating the plan is to survey the residents of the incorporated limits of the Town of North Beach regarding their properties and town-provided services.

The Calvert County Land Preservation, Parks and Recreation Plan (LPPRP) guides land conservation and development of outdoor recreation opportunities over the next five years. The Program Open Space Law, as most recently amended, requires the county to prepare a local land preservation and recreation plan at least every five years and submit it to the Maryland Department of Natural Resources and the Maryland Department of Planning. The Plan aims to provide Calvert County's citizens and visitors with safe and easily accessible amenities; encourage the enjoyment and stewardship of Maryland's natural world; and balance outdoor recreation land use with natural and cultural resource protection. The LPPRP is based upon the goals and actions set forth in the Calvert County Comprehensive Plan and utilized multiple methods to collect data, inventory existing conditions, engage the community and evaluate input, and gauge the overall level of service provided by public parks, open spaces, and recreation amenities in Calvert County. It also serves as the basis for the Calvert County Program Open Space Annual Program and qualifies the county to receive Program Open Space funding from the state. Calvert County's current plan was adopted by the Board of County Commissioners on August 23, 2022 and the next plan will be due in 2027.

The Calvert County Department of Economic Development maintains a Strategic Plan which guides and focuses staff in its annual outreach activities, helps set clear and actionable business development goals and priorities, outlines indicators for success and highlights objectives to support, attract and retain strong, healthy and dynamic companies of all sizes and industries. In February 2021, the department contracted with the International Economic Development Council (IEDC) to develop a three-year Strategic Pivot Plan and help establish economic priorities in Calvert County for the period 2021-2024. In crafting this plan, IEDC and departmental staff engaged a number of local stakeholders, reviewed all prior economic development and planning documents, conducted in-depth economic, demographic and budgetary data analyses and developed a strength, weakness, opportunity and threat (SWOT) analysis for the county. The final document was received in June 2021.

Sustainable Communities Renewal Application - Section A

- (4) Would you like any technical assistance from State agencies to help expand the capacity of your SC Workgroup or implement your SC plan? Please describe with which revitalization strategies you would like assistance.

The Sustainable Communities Workgroup would like assistance from the State agencies that provide benefits for Sustainable Communities to learn more about their programs and receive guidance when applying for funding.

SECTION B - SUSTAINABLE COMMUNITIES ACTION PLAN

Calvert County, Maryland

Example Section

Strengths

- Insert bulleted list of strengths (provide some detail as to why and how this is a strength in your community)

Weaknesses

- Insert bulleted list of weaknesses (provide some detail as to why and how this is a weakness in your community)

Desired Outcomes and Progress Measures

Outcomes should be considered end results of actions and strategies. Based on the strengths and weaknesses, identify the strengths on which you would like to build and the challenges you would like to address.

Progress Measure: What will you use to measure success toward outcome? Is it quantifiable or qualifiable?

Strategies and Action Items

Identify strategies that will help your community to achieve each identified outcome to the left. If applicable, break down each strategy into specific action items that outline different steps of the strategy. Specify how you are planning to achieve the desired outcomes.

Implementation Partners

Which community stakeholders need to be involved to realize each action step and strategy? Name specific public and/or private sector partners.

Example Outcome 1: Code violations and complaints are reduced in the Sustainable Community residential areas.

Example Progress Measures: Code violations reduced by 25% in Sustainable Community residential areas

Example Strategy A: Review and revise, as needed, code compliance program to reduce frequency and number of residential code violations.

Example Action 1: Complete analysis of code violations over the past five years to determine areas, both geographically and topically, for which code violations are most frequent.

Example Action 2: Conduct outreach program to determine barriers to code compliance.

Example Action 3: Analyze code compliance program for potential inefficiencies and opportunities for proactive engagement.

Example Action 4: Pursue façade improvement funding to assist low-income homeowners overcome barriers to code compliance.

Maryland Department of Planning, Maryland Department of Housing, County Planning Department, local homeowners association

Environment

This section describes projects involving the natural environment, our use of natural resources, and our relationships or access to the natural environment.

This category includes projects focusing on (but not limited to): the quality of land, water, and air; tree canopies and green spaces; green infrastructure; habitat improvement, climate change mitigation and adaptation; nuisance flooding,; stormwater infrastructure and management; water and sewer capacity; energy conservation; recycling, pet waste, and organic waste programs; the mitigation of environmental hazards; and parks and recreation improvements.

<u>Strengths</u>	<u>Weaknesses</u>
<p>Calvert County Government</p> <ul style="list-style-type: none"> Six convenience centers located throughout the county Weekly collection from county office buildings Monthly paper shred and biannual HHW events <p>Chesapeake Beach</p> <ul style="list-style-type: none"> Increased resource conservation (RC) districts through rezoning approximately 300 acres of land to RC protecting environmentally fragile areas from development. Strong group of volunteers willing to improve the Towns sustainability efforts. Reduced the Towns carbon footprint. Expanded the Towns urban forestry program. Reduced impacts of runoff into the Chesapeake Bay 	<p>Calvert County Government</p> <ul style="list-style-type: none"> Limited curbside collection available by subscription only Recycling is not available for all materials (including single-use batteries, plastic film) Transportation costs to deliver recyclable materials to processors <p>Chesapeake Beach</p> <ul style="list-style-type: none"> Limited areas of resource that are publicly owned. The majority of the newly zoned RC district is privately owned, which limits the Towns ability to convert them to nature areas that are publicly accessible or through trails. RT 261 is prone to flooding and connection issues for residents of the Twin Beaches to access their homes and emergency services. RT261 flooding prevents access issues to the Chesapeake Beach Water Reclamation Treatment Plant (CBWRTP) that services citizens, businesses and schools in Calvert County, Anne Arundel County, the Town of North Beach (“Partners”) and the Town of Chesapeake Beach (“Plant Operator”). Increased infiltration and inflow (I&I) to the CBWRTP from all jurisdictions due to high rain events and tidal activity.

<u>Desired Outcomes and Progress Measures</u>	<u>Strategies and Action Items</u>	<u>Implementation Partners</u>
Calvert County Government	Calvert County Government	Calvert County Government Department of Public Works

Sustainable Communities Renewal Application - Section B

<p>Outcome 1: Increase Residents' Engagement in Recycling Programs</p> <p>Progress Measures:</p> <ul style="list-style-type: none"> • Amount of recyclable materials collected at the County's Convenience Centers and office buildings • Level of recycling stream contamination • Number of attendees of workshops on recycling 	<p>Strategy A: Enhance Education and Outreach. Develop and implement workshops, training, and other activities for different age groups of Calvert County residents. Recycling workshops at Calvert County libraries will be available for school students, adults, and HOA representatives. The emphasis will be not only on educating residents but also on training people how to recycle right.</p> <p>Strategy B: Investigate additional recycling options. Perform waste stream analysis and create a list of items that can be included in recycling or reuse programs (e.g., DME, books, plastic bags).</p> <p>Strategy C: Implement a Community Ambassador program to communicate information better on a day-to-day basis. Calvert County Government's SWD already has connections with community leaders involved in recycling. These connections need to be expanded and strengthened through outreach and training.</p>	<p>Citizens of Calvert County Calvert County Board of County Commissioners (BOCC) HOAs Maryland Department of the Environment (MDE) Environmental Protection Agency (EPA) Maryland Recycling Network (MRN)</p>
<p>Calvert County Government</p> <p>Outcome 2: Increase Cost Efficiency of Recycling Programs</p> <p>Progress Measures:</p> <ul style="list-style-type: none"> • Revenue from recyclable materials • Operational cost of recycling program 	<p>Calvert County Government</p> <p>Strategy A: Research alternative vendors. Analyze in-state and out-of-state recycling markets to compare prices for materials and services offered by various suppliers.</p> <p>Strategy B: Optimize transportation to reduce costs and carbon footprint by analyzing various transportation routes for recyclable materials and providing recommendations for their optimization. With reduced transportation costs, accepting commercial curbside recycling may be more economically attractive to the county.</p> <p>Strategy C: Implement recyclable materials sorting to reduce contracted processing costs and increase revenue from recyclable commodities, including cardboard and scrap metal. Conduct a feasibility study to expand the operations of the County recycling program with manual or mechanical sorting of certain types of waste. Accepting commercial curbside recycling may be more economically attractive to the county with reduced processing costs.</p>	<p>Calvert County Government</p> <p>Department of Public Works Citizens of Calvert County Calvert County Board of County Commissioners (BOCC) HOAs Maryland Department of the Environment (MDE) Environmental Protection Agency (EPA) Maryland Recycling Network (MRN)</p>
<p>Calvert County Government</p> <p>Outcome 3: Upgrade Prince Frederick Wastewater Treatment Plant #1 to increase treatment level and flow capacity.</p>	<p>Calvert County Government</p> <p>Strategy A: Upgrade for biological nutrient removal (BNR) or enhanced nutrient removal (ENR)</p> <p>Strategy B: Improve the efficiency of the existing treatment train.</p>	<p>Calvert County Government</p> <p>Department of Public Works Maryland Department of the Environment (MDE)</p>

Transportation

This section describes the way people in your community get from place to place.

Strengths, weaknesses and outcomes can focus on: access to transit corridors; pedestrian safety and accessibility; sidewalks; alternative modes of transportation, such as bikeways and trails; public transit, such as bus and rail; carpooling; proximity to transportation centers; parking; and road conditions.

Strengths	Weaknesses
<p>Calvert County Government</p> <ul style="list-style-type: none"> Increased pedestrian connectivity throughout each Town Center. Upgrade in public transit dispatch software to create greater operational efficiency. Improvements to the Route 4 Corridor in the center of Prince Frederick consist of additional travel lanes, including dedicated bicycle lanes and sidewalks, which provide heightened pedestrian accessibility. Solomons – Upgraded sidewalks enhancing pedestrian, bicycle, and alternative transportation accessibility. Completion of the Dunkirk and Prince Frederick Bikeways Feasibility Study EV (Electronic Vehicle) Chargers have been installed and are slated for use at multiple publicly owned and accessible locations throughout the Dunkirk, Lusby, and Prince Frederick Town Centers. Calvert County has acquired multiple rights of way from private landowners to facilitate the establishment a public trail system along the Baltimore/Drum Point railroad bed in Prince Frederick. <p>Chesapeake Beach</p> <ul style="list-style-type: none"> Established a Town walkable community advisory group that created a master walkability plan that sets the foundation for improved walkability in Town. 	<p>Calvert County Government</p> <ul style="list-style-type: none"> Sporadic deficiencies in the Town Center sidewalk networks Sections of MD Route 2/4 need to be modernized along the northern and southern portions of the Town of Prince Frederick to align with the center upgraded section. Calvert County does not possess a comprehensive bicycle and trail plan to direct implementation of future pedestrian or alternative transportation opportunities. <p>Chesapeake Beach</p> <ul style="list-style-type: none"> Several unsafe areas remain in Town and require coordination with other jurisdictions to make improvements.

Desired Outcomes and Progress Measures	Strategies and Action Items	Implementation Partners

---	---	---

Housing

This section focuses on the homes in which people in your community live and efforts which make it easier for them to find and stay in a place to call home.

Strengths, weaknesses and outcomes might focus on the following: affordability; increasing homeownership; increasing rental housing; diversifying the kinds of housing available; improving housing conditions (interior or exterior); housing programs; aging in place; preventing foreclosures; and reducing residential vacancies.

Strengths	Weaknesses
<p>Calvert County Government</p> <ul style="list-style-type: none"> ● Increased # MAP Coordinators and Aging Case Managers to support seniors/disabled adults ● Most of the rental stock is relatively new (built since 2000) ● Increase in project-based rental housing vouchers for special populations ● Encourages homeownership through House Keys 4 Employees program ● Increased livability improvements and reduction in energy costs for homeowners made possible through the Healthy Homes program ● Increased rates of homeownership ● Residential vacancies are low <p>Chesapeake Beach</p> <ul style="list-style-type: none"> ● Primarily owner-occupied housing in Town 	<p>Calvert County Government</p> <ul style="list-style-type: none"> ● Growing % of vulnerable renters and homeowners (aging population) ● Increasing rents and cost-burden rates ● Some affordable housing communities outside of the town centers ● Shortage of affordable housing units (30% AMI) ● Very high-income levels for some of the population (coupled with homeownership rates) limit potential state and federal program investments ● More than 50% of renters in Calvert County spend more than 30% on housing costs ● Shortage of crisis, short and long-term supportive housing options for individuals with behavioral health issues or chronic homelessness ● Homeowners on fixed incomes (disabled/seniors) in aging homes have difficulty funding major repairs/upgrades to septic, well, stormwater repairs, tree removal, etc. ● Improvements needed in housing conditions <p>Chesapeake Beach</p>

Community Health and Quality of Life

This section is concerned with public health, community culture, and the day-to-day life of community residents.

This category includes projects focusing on (but not limited to): improvement of public health including improving community design to promote healthy behaviors such as walking and strengthening community support and connectedness through health and wellness programs and facilities that create inclusive communities. These projects may include built environment, indoor spaces, outdoor environments such as increasing community gardens and access to services including educational facilities and programs; health and wellness facilities and programs that serve multi-generations; senior facilities and programs; youth facilities and programs; facilities and programs for the disabled; civic amenities, access to quality food options; collaborations with faith-based organizations; arts and entertainment education; and homelessness prevention, services, and facilities. Projects should include community engagement that includes participation in the selection of strategies and outcomes, progress reports, and evaluation.

Strengths	Weaknesses
<p>Calvert County Government</p> <ul style="list-style-type: none"> • Calvert County, Chesapeake Beach, and North Beach have long had strong ties to the Chesapeake Bay and its tributaries, enjoying associated maritime and waterfront traditions and - in many cases - livelihoods. • There are substantial lengths of shoreline within the Sustainable • Communities designated areas, including public parks and fishing piers, available to the public. • Rich historic infrastructure and character. • Solomons is home to the Calvert Marine Museum. • Solomons is home to Annmarie Garden. • Chesapeake Beach is home to the Chesapeake Railway Museum. • Large civic involvement from business associations and Fire/Rescue Squads. • Large quantity of places of worship. • Vibrant community centers located in the Prince Frederick Town Center (Harriet E. Brown Community Center), the Lusby Town Center (Southern Community Center), and Chesapeake Beach (Northeast Community Center). All are operated by Calvert County’s Department of Parks & Recreation. • The County’s only indoor aquatic facility is in the Prince Frederick Town Center (Edward T. Hall Aquatic Center). • Senior Centers are in the Prince Frederick Town Center, Lusby Town Center, and North Beach. • Calvert Library is located in Prince Frederick with satellite locations in Solomons, Chesapeake Beach, and near the Dunkirk Town Center in Owings. A new location in the Twin Beaches will come online during this cycle. 	<p>Calvert County Government</p> <ul style="list-style-type: none"> • Lack of public water access. • Lack of trail connections. • Rural nature of the area creates infrastructure difficulties, such as the lack of water/sewer connectivity. • Lack of public art. • Opioid problems are prevalent. • Adolescent and young adult violence on the rise • Limited competitive funding for homeless prevention services • Limited placement options for crisis homeless cases (shelter full, limited supportive housing options, case management capacity)

Sustainable Communities Renewal Application - Section B

<ul style="list-style-type: none"> • Health & wellness collaborations between Calvert County Public Schools, Calvert County Government, CalvertHealth, and Calvert Heath Department. • The Calvert County Department of Parks & Recreation offers programs in all areas addressing health & wellness, serving youth, seniors, and those with a disability. • Collaborative partnerships between homeless prevention programs, i.e., Homeless Services Board engagement • Strong HUD Continuum of Care (CoC) involvement and triage approach to high-risk cases • ERAP and CARES/ARPA Funding to support additional rental assistance, homeless outreach and case management, and emergency sheltering. Funding supported growing engagement and resource support for landlords and Sheriff's Office. <p>Chesapeake Beach</p> <ul style="list-style-type: none"> • Active group of citizen advisory committees focused on health and reduction of opioid • Increased community gardens and sitting areas, and activity areas for all ages 	<p>Chesapeake Beach</p> <ul style="list-style-type: none"> • Resources are obtained through coordination and are not housed within the Town; however, the Town has established great partnerships with local nonprofits, government agencies, and partners to bring programs to residents.

Local Planning and Staffing Capacity

This section is concerned with a local government’s ability to plan for the community’s future and to meet the current needs of residents.

Strengths, weaknesses and outcomes might focus on the following: updating zoning ordinances or land use; updating municipal/local policies, taxes, fees, etc.; increasing local government staff capacity; and updating planning documents like sector plans or comprehensive plans.

Strengths	Weaknesses

SECTION C - SUSTAINABLE COMMUNITY RENEWAL

REPORT

PART I: QUALITATIVE ASSESSMENT

Purpose:

The purpose of this assessment is to capture significant projects/ improvements that have been completed since the approval of your local government's Sustainable Communities designation.

In relation to the goals stated in your local government's Sustainable Community Action Plan, **please highlight at least three major accomplishments from the last five years**, including how you achieved them. When writing your narrative, consider the questions below and refer to the six elements discussed in the General Information section of this document (page iv) – Environment, Economy, Transportation, Housing, Quality of Life, and Land Use/Local Planning.

- 1) **Outcome:** Which outcomes identified in your Sustainable Community plan were you able to achieve?
- 2) **Projects:** Which projects did you implement in order to achieve the outcome? Also indicate when you started and completed these projects.
- 3) **Partners:** With whom (i.e. state agencies, local stakeholders) did you partner to complete projects?
- 4) **Impact:** What kind of measurable impact did the achieved outcome have on your community? Are there other intangible benefits?
- 5) **Photos:** Please also include pictures that depict your accomplishments.

[EXAMPLE] Descriptive Narrative: Please list the most significant accomplishments that apply

Example – Accomplishment 1

Outcome: Improved stormwater management

Projects:

Project 1: Stormwater Retrofit Plan – In October 2014, the Town Council approved the Town's stormwater retrofit plan which outlines various strategies and capital budget expenditures over the next five years. Strategies include reducing the amount of impervious surface in the community and improving stormwater management. One of the plan recommendations is to pass an ordinance that assesses an environmental protection fee on municipal permits.

Project 2: Green Streets – The Town added green elements to approximately 600 linear feet of roadway that had been experiencing severe flooding. Specifically, bioswales were constructed and trees were planted.

Partners:

Chesapeake Bay Trust – provided technical assistance

MD DHCD – provided financial assistance in form of a Community Legacy grant (totaling \$50,000).

Impact: The implementation of the projects had a significant impact on the community by improving stormwater runoff. The streets with the newly constructed bioswales no longer experience flooding.

Descriptive Narrative: Please list the most significant accomplishments that apply.

Calvert County Government - Accomplishment 1:

Outcome: Constructed or upgraded transportation, public water, public sewerage, and solid waste infrastructure essential for Calvert County citizens and the economy, explored the management of stormwater waste BMP and other hard-to-manage waste.

Projects: The following infrastructure has been constructed or upgraded within the past five (5) years:

Prince Frederick:

- Added new water lines to loop several areas of the Prince Frederick system to increase reliability as part of the Prince Frederick Water line improvement project.
- Added Beechtree Sewer Pump Station.
- Upgraded Chapline Sewer Pump Station.
- Recoated South Prince Frederick water tower.
- Recoated North Prince Frederick water tower.
- Lined an integral sewer line across Route 4 on Dares Beach Road (Dares Beach Road to Walmart).
- Replaced critical aging force main sewer line on Main Street.
- Improved and widened existing Fairgrounds Road.
- Restabilized and repaired a section of Clay Hammond Road after Tropical Storm Isaias.
- Restabilized and repaired an area in Simmons Ridge development from severe erosion.

Dunkirk:

- Helped upgrade Ward Farm.

Lusby:

- Replaced Southern Pines Sewer Pump Station.
- Performed significant overhauls of both leachate pumping stations.

Solomons:

- Major pumping station overhaul at Solomons Headworks
- Lined gravity sewer main and rehabbed manholes on Solomons Island from the causeway to Charles Street
- Repaved and relined Solomons Island
- Replaced and improved sidewalks and crosswalks on Solomons Island
- Improved and widened Dowell Road

The Solid Waste Division provides bi-annual Household Hazardous Waste Collection events for Calvert County residents. Residents can dispose of hard-to-manage waste at these events, including oil-based paints, solvents, pesticide/herbicides, household chemicals, mercury-containing devices, medications, ammunition, and more.

Partners: Citizens of Calvert County, Maryland Department of the Environment, Commercial Development Community, Calvert County Board of County Commissioners, Clean Harbors: Environmental and Industrial Services

Impact: The benefits of providing public infrastructure include, but are not limited to:

- Improved, safer access for pedestrians, bicycles, cars, and emergency vehicles.
- Provided improved stormwater management systems to manage proper drainage.
- Protected citizens' health, property, air, and environment.
- Improved the quality and volume of drinking water.
- Citizens can dispose of hazardous wastes in an environmentally responsible manner.

Calvert County Government - Accomplishment 2:

Outcome: Enhanced economic competitiveness through improved marketing of unique events and activities.

Projects:

Sustainable Communities Renewal Application - Section C

- Distributed several million dollars in grant funds due to the COVID-19 pandemic. Calvert County Government was the pass-through agency for many federal and state grant funds opened due to the COVID-19 pandemic. The Department of Economic Development served as the liaison for grant opportunities for the business community.
- Developed several driving trails to promote increased cooperation between local businesses/attractions and encourage citizens and visitors to frequent local businesses. The Department of Economic Development organized multiple new trails, including the award-winning birding trail in coordination with Calvert County Parks & Recreation, to encourage local businesses and attractions to partner to promote one another as a part of a larger “trail.” This project also encouraged citizens and visitors to visit several businesses/attractions to complete the trail.
- Coordinated the inaugural Christmas on Main Street initiative to bring the feeling of the holidays to the local community. Calvert County Government organized a community event to encourage community among local citizens, businesses, and government officials. The event was well attended and will be built on in the following years to make it an annual program hosted on Main Street.
- Buying local is easy with an abundance of fresh food from Calvert County’s farmers, agri-businesses and watermen. Patrons can find local produce, meat, bedding plants (vegetables and herbs) and a bounty of other offerings. The Calvert County Farmers Market Association offers “producers only” markets in Prince Frederick, Dunkirk and Lusby. All vegetables, fruits, herbs, tree nuts, meats, flowers, plants and other products sold at the markets must be grown or produced by a local farmer or vendor.

Partners: Calvert County Departments of Economic Development, Finance & Budget, Communications & Media Relations, County Administrators Office, County Attorney’s Office, BOCC Office, Calvert County Parks & Recreation, Community Resources, Calvert County Office on Aging, Calvert Pines Senior Center, Calvert High Chorus, Hidden Lake Christmas Tree Farm, Bulrushes Café, Calvert Garden Club, local businesses, local attractions

Impact:

- The distribution of COVID-19 grant funds to the local business community helped sustain business operations, such as payroll, rent, and utility payments, during forced business closures due to the COVID-19 pandemic. Once businesses could reopen, later grant rounds provided businesses with funds to upgrade their equipment, software, etc., to accommodate changes in business operations, like providing carry-out or online food ordering.
- Increased cooperation among local businesses/attractions and increased visitors to trail stops.
- The Maryland Economic Development Association (MEDA) recognized the new Calvert County Birding Trail as an “inspiring cooperative COVID-era project” that other communities across the state of Maryland might like to replicate to promote to their residents and visitors.
- Promoted the small-town charm contributing to the quality of life that makes Calvert County unique.
- From 2019 -2022 hosted 2,991 events in Calvert County (based on the tourism calendar).
- Tourism visitor counts from the major County attractions:

	2018	2019	2020	2021	2022

13	24	16	16	10

Sustainable Communities Renewal Application - Section C

Calvert County Government - Accomplishment 3:

Outcome: Decreased the percentage of residents paying more than 30% on housing costs

Projects:

- Housing Authority of Calvert County applied for and received ten additional mainstream vouchers and five housing choice vouchers.
- Housing Authority of Calvert County coordinated with a developer to bring 65 affordable, LIHTC-funded units (30, 50, and 60% AMI) at the new Calvert Hills development at 395 Elizabeth Drive, Prince Frederick, MD 20678.

Partners: Osprey Development, Housing Authority of Calvert County, DHCD, U.S. Treasury, HUD

Impact:

- 80 additional affordable units

Calvert County Government - Accomplishment 4:

Outcome: Enhanced existing services and facilities

Projects:

- CCPR, in collaboration with Planning & Zoning, completed the 5-year Land Preservation, Parks & Recreation Plan (LPPRP) for Calvert County in 2022.
- The Department completed Master Plan for the Harriet E. Brown Community Center and Park for future development in 2022.
- Therapeutic Recreation Services collaborated with community organizations and departments in CCG to provide TR Healthy Lifestyles classes to young adults with disabilities.
- Recreation staff acted creatively to offer the community as many experiences as possible throughout the pandemic, including safe and socially distanced in-person events, the Get Out & Play modified summer camp program, and the Virtual Activity Center.
- Department staff worked collaboratively with Calvert County Health Department to safely allow sports participants to return to play, making Calvert County one of the first recreational leagues in the State to offer youth soccer during the pandemic.
- Aquatics increased the number of certified pool operator staff, offered multiple lifeguarding certification courses, and offered water fitness and swim lessons in response to demand.
- Department staff updated the Master Plan for Cove Point Park.
- Established walking trail with water view access at Solomons Town Center Park.
- The department expanded its Meadow Management program with controlled burns.
- BOCC adopted Chapter 82 of the Calvert County Code. The first time laws have been in place for parks & recreation facilities and programs.
- Hosted the first adult pickleball league due to the sport's growing popularity.
- Completed the construction of a new playground for Dunkirk District Park, the first in Calvert County to include custom pieces.
- Upgraded the tennis court lighting at Cove Point Park to LED.
- Repaired the big water slides at Cove Point water park.
- Retaining walls were installed at Cove Point Park Playground to reduce erosion.
- Lighting upgrades to Cove Point field 1.
- Repaved Solomons Boat Ramp.
- The department completed lighting projects at all 3 district parks.
- The department installed new park entry signage at seven parks.
- The department established 1st in-County hybrid playing surface at Solomons Town Center Park.
- Completed irrigation project at Solomons Town Center Park.
- Resurfaced Dunkirk District Park basketball courts
- Rebuilt all pitching mounds within the park system.
- Repaired and replaced all park perimeter fencing and backstops

Sustainable Communities Renewal Application - Section C

- Installed additional pickleball court lines at Cove Point Park.
- Completion of Solomons Boat Ramp project.

Partners: Calvert County Parks & Recreation, Calvert Health, ARC of Southern Maryland, The Center of Life Enrichment, The Connection, Calvert County Public Schools (Learning for Independence, Infants and Toddlers, Judy Center, Head Start), Linda Kelly Animal Shelter, The Pottery Patch

Impact:

- The Department received our CAPRA Accreditation at the NRPA National Conference in September 2022. CCPR is now one of only 183 accredited agencies nationwide and the fifth accredited agency in the state of Maryland.
- We held the County's inaugural Pickleball Tournament, hosting 184 matches over two days.
- 55 event permits issued
- Recreation Program Matrix updated in 2021
- 65 customer service survey responses
- 73,640 field reservations

Calvert County Government - Accomplishment 5:

Outcome: Developed Engaged Citizenry

Projects:

- Events & Marketing worked to increase engagement across all social media platforms. Facebook pages for Parks and Recreation, Chesapeake Hills Golf Course, Breezy Point Beach and Campground, and the Hall Aquatics Center total more than 19,000 followers.
- Parks & Recreation installed a new user interface for our WebTrac online registration software. The new interface allows customers to use mobile phones to register for our programs. It creates a user-friendly and easy-to-follow process for our customers for online registration.
- A mobile-friendly Water Access Map was launched to help paddlers, anglers, and others who enjoy the water discover other amenities around the different water access locations. This includes restaurants, accommodations, heritage sites, and other sites.
- Therapeutic Recreation staff cooperated with Calvert County Public Schools Special Education Department and other county early intervention services agencies to create a webinar entitled "Effective Collaboration: How Do the Pieces Fit Together?"
- Aquatics implemented an online reservation system for pool lanes and therapy pool use to comply with COVID-19 capacity restrictions and allow public access to water fitness opportunities.
- BOCC adopted Revenue & Fee Policy, Manual, and Fee Schedule; adopted Marketing & Outreach Plan; adopted Adopt-A-Park/Beach program.

Partners: Calvert County Parks & Recreation, Calvert County Public Schools

Impact:

- Marketing & Outreach Plan, adopted 2019, updated 2022
- Recreation Programming Matrix, updated 2021
- From 2019-2022, Natural Resources staff facilitated more than 733 public programs, reaching more than 9,813 participants.
- From 2019-2022, Calvert Steward volunteer program participants recorded 23,568 hours of service. The dollar value of this volunteerism is \$612,768.
- Assisted 31 individuals with Eagle Scout projects.

Calvert County Government - Accomplishment 6:

Outcome: Improved Opioid Services throughout the county

Projects:

Sustainable Communities Renewal Application - Section C

- Expanded treatment and counseling services from a small office in the community center to a new standalone Lusby Behavioral Health Facility, a former pediatrician office located at 11845 H G Trueman Rd, Lusby, MD 20657.
- CalvertHealth Medical Center's 2020 needs assessment ranks behavioral health as one of the most pressing issues in Calvert County. Lusby, Prince Frederick, and Chesapeake Beach are areas of greatest service demand.
- Calvert County Behavioral Health Rapid Response Team launched in March 2018 as more medication-assisted treatment providers became available. The team partners with the Sheriff's Office and EMS. Half of overdose victims are seen within 24 hours. As of 2022, Calvert is the third lowest per capita overdose fatality rate in MD.

Partners: Calvert County Department of Community Resources, Calvert County Health Department, Calvert County Behavioral Health;

Impact:

- Service access to behavioral health services in Lusby increased, resulting in transitioning a prescriber to site from 2 days/week to 4 days/week; and increasing therapists from two full-time to equivalent of 4 full-time and 2 part time.

Calvert County Government - Accomplishment 7:

Outcome: Preserved rural character

Projects:

- Calvert County Planning & Zoning Department led the county government's effort to update the Calvert County Comprehensive Plan, which had been updated/amended in 2010. After a multi-faceted public participation process, the Calvert County Planning Commission recommended that the Board of County Commissioners adopt the plan. The Board adopted the Comprehensive Plan in August 2019. In 2022, the Comprehensive Plan was amended by the Board to reduce or remove the future expansions of four of the designated Town Centers.
- The Planning & Zoning Department led the process of updating the Calvert County Transportation Plan. The Board adopted the updated plan in June 2020 and replaced the prior plan adopted in 1997.
- After adopting the Comprehensive Plan, the Planning Commission endorsed a three-phase process to update the seven Town Center master plans. Since 2020, two master plan updates have been initiated, Prince Frederick and Dunkirk. The first two public meetings for the Prince Frederick Town Center Master Plan Update were held in person. Due to the COVID-19 pandemic, the county developed new ways for residents, business owners, and other interested people to participate in the update process by changing the in-person format to a virtual format.
- In 2022, the Board of County Commissioners strengthened and expanded the county's adequate public facilities requirements. The Department of Planning & Zoning led the inter-department process to strengthen the adequacy requirements for roads and to include water and sewer; stormwater management; solid waste and recycling; fire, rescue, and emergency management services; and law enforcement services to the types of public facilities that are reviewed during the development review processes. Calvert County Government has increased its growth management capacity by expanding and strengthening the adequacy tests.

Partners: Calvert County Government, Planning & Zoning, Planning Commission, Citizens of Calvert County

Impact:

- The Calvert County Comprehensive Plan sets forth a goal to preserve 40,000 acres. The county comprises approximately 140,000 acres, so the goal is approximately 29% of the county's total acreage. In 2017, there were 27,702 acres preserved through county and state preservation programs. As of January 17, 2023, there were 32,187 acres preserved, which is 80% of the goal and 23% of the county's total acreage.
- The county government added a new option for its internationally-known agricultural preservation program. In 2021, the Board of County Commissioners adopted new regulations that establish a Development Rights Reserve "for the conservation of lands valuable to the heritage of Calvert County." (Ordinance 45-21)

Chesapeake Beach - Accomplishment 8:

Outcome: Over \$7M contributed to maintaining open access to the Fishing Creek Channel.

Projects:

Sustainable Communities Renewal Application - Section C

- Over the last five years, the Town has coordinated with State and Federal Partners to maintain open access to the Fishing Creek channel. The Fishing Creek channel is a vital economic driver to the Town, County, State, and the US. Activities included two partial dredges of the channel, two dredge material placement site rehabilitations, and one federal dredge.

Partners: US Navy, US Army Corps of Engineers, Maryland MDE, Maryland DNR.

Impact:

- A passable channel to over 30 commercial charter captains, the US Navy, and over 6000 Maryland recreational boaters who access the channel for free thanks to the support of the Town and Maryland Department of Natural Resources.

Chesapeake Beach - Accomplishment 9:

Outcome: Provided continued education for the community on sustainable initiatives.

Projects:

- Initiatives over the last five years include rain barrel workshops open to the public, bay-wise certifications for community members, vine removal from trees to ensure their longevity, holding multiple outreach sessions to expand awareness of how to mitigate invasives, planted trees, planted native plants, started the process to become a Tree City by passing a resolution and forming a Tree Board.
- The Town held community clean-ups and paddle and pathway events in coordination with the Calvert County Parks and Recreation.

Partners: Seagrant, University of Maryland finance center, Maryland Department of Natural Resources, Calvert County Parks and Rec Northeast community center

Impact:

- Further education for the public on how citizens can make a direct impact.

Chesapeake Beach - Accomplishment 10:

Outcome: Educating members of the public on the importance of a clean Chesapeake Bay. Directly improve the health of Chesapeake Bay.

Projects:

- Chesapeake Beach Oyster Cultivation Society (CBOCS) held public sessions to build reef balls, deployed reef balls in the Bay, contributed over 900,000 new oysters in the Bay over the five years, educated over 7,500 Calvert County Public Schools children on the need for oysters to save our Bay and the importance of a Clean Bay, conducted water quality testing measures to monitor the health of the bay and survivability of the oysters placed in the Bay on Old Rock Reef.

Partners: Calvert County Public Schools, Maryland Department of Natural Resources

Impact:

- A clean Chesapeake Bay and an educated community for improved awareness of the importance of continuing this effort.

Chesapeake Beach - Accomplishment 11:

Outcome: Improved Coastal resiliency through established planning processes

Projects:

Sustainable Communities Renewal Application - Section C

- The Town was awarded a coastal resiliency grant from the State of Maryland which funded updates to the Town's GIS mapping to determine flooding impacts. The Town completed surveys to determine infrastructure at risk for flooding. The Town is outlining concerns with flooding through all lines that run to the Chesapeake Beach Water Reclamation Treatment Plant, including lines from Anne Arundel County, Calvert County, and the Town of North Beach. Progress can be found on the Town website linked [here](#).
- Buffer Gardens – The Town of Chesapeake Beach Green Team planted several buffer gardens throughout the town in areas that experience flooding to treat stormwater and prevent erosion.
- Completed a risk assessment with the Environmental Protection Agency (EPA) to evaluate the need to install an additional access road to the Chesapeake Beach Water Reclamation Treatment Plant. The project identified the cost avoidance of over \$1M by installing a redundant emergency access road out of the flood plain to gain access to the 24/7 treatment plant for deliveries and general operating needs.

Partners: Chesapeake Beach Green Team, Maryland Department of Natural Resources, Environmental Protection Agency (EPA), Town of North Beach, Anne Arundel County, Calvert County

Impact:

- The implementation of the projects had a significant impact on the community by improving stormwater runoff. The streets with the newly constructed bioswales no longer experience flooding.

Chesapeake Beach - Accomplishment 12:

Outcome: Protected approximately 300 acres of resource conservation through an updated comprehensive plan update

Projects:

- Expanded resource conservation areas in the Town limits limited development of natural areas sensitive to flooding and ecological support bordering the Fishing Creek and Chesapeake Bay.

Partners: Chesapeake Beach Planning and Zoning Commission

Impact:

- Increased plans for green space and naturally protected sensitive areas.

Chesapeake Beach - Accomplishment 13:

Outcome: Increased green space and open space throughout Town.

Projects:

- Through the 2040 Comprehensive rezoning, the Town increased requirements for green space and lot size for development.

Partners: Chesapeake Beach Planning and Zoning Commission.

Impact:

- Increased green space
- Increased open space

North Beach - Accomplishment 14:

Outcome: North Beach will continue to seek funding to explore policies, procedures, new techniques, and practices along with implementing environmental strategies that seek to protect the sea level rising.

Projects:

- Installation of new water meters and well house.
- Cleaning of the 8' stormwater pipe on 5th Street to assist with storm flooding.

Sustainable Communities Renewal Application - Section C

- Installation of a new, more efficient pump at the Chesapeake Avenue pump station.
- Creation of the Stormwater/Flood Mitigation Committee
- Completed work on Phase 1 of the Stormwater Comprehensive Plan for the entire Town.
- Construction started on MD Route 261 Roadway Reconstruction Project by the State Highway Administration, which included raising 261. The improvements were; raising the roadway elevation, constructing a new bridge with wide shoulders, inlet and culvert replacement, and ADA-compliant sidewalk construction between 8th and 9th Streets.
- Planning, implementation, and the start of construction for the new Twin Beach Library Branch,
- Upgrade to the Greenwood Avenue pump station, along with two higher capacity pumps and a new inline flow meter installed.
- Hired a consultant to conduct an in-depth assessment of all town-related flooding issues and to develop a Compound Flood Action Plan.
- Completed the upgrade to the 5th Street stormwater Pumping Station.
- Implemented the iamGIS Geo-Asset Management system to map infrastructure.

Partners: Calvert County Government, State of Maryland, Maryland Energy Administration, State Highway Administration

Impact: The benefits of providing public infrastructure include, but are not limited to:

- Improved, safer access for pedestrians, bicycles, cars, and emergency vehicles.
- Provided improved stormwater management systems to manage proper drainage.
- Reduced air, water, and land pollution.
- Protected citizen health and environment.
- Increased quality and volume of drinking water.
- Improved fire protection for the community.
- Reduced health risks associated with contaminated standing surface water.
- Conserved more natural resources because it reduces the need for raw materials.
- Reduced greenhouse gas emissions, a contributing factor to global warming

Descriptive Narrative: Please use this section to describe any major outcomes or projects from your last Sustainable Communities Action Plan that have NOT been accomplished and why.

Calvert County Government

Outcome: Constructed or upgraded transportation, public water, public sewerage, and solid waste infrastructure essential for Calvert County citizens and the economy, explored the management of stormwater waste BMP and other hard-to-manage waste.

Project: Update the Prince Frederick Wastewater Treatment Plant #1 to Enhanced Nutrient Removal (ENR) capabilities while increasing treatment capacity and meeting more stringent discharge limit requirements.

Narrative: The concept plan for the plant design is complete, and discharge options are currently being identified.

Economy, Outcome 2: Promote business continuity planning and emergency preparedness. Business continuity planning is the process of creating systems of prevention and recovery to deal with potential threats to a company. Any event that could negatively impact operations is included in the plan.

Narrative:

Housing, Outcome 1: Increase capacity to assist need-based homeowners with major home improvements

Narrative: This goal was postponed. With the onset of COVID-19 in 2020, the Department of Community Resources had to redirect plans to support the pandemic response. Department of Community Resources was responsible for administering over 5 million in grants to support rental and utility assistance through ERAP, economic relief grants for nonprofits through ARPA, and developing case management, quarantine sheltering, and travelling nurse programs that address vulnerable

Sustainable Communities Renewal Application - Section C

populations impacted by the pandemic through CDBG. As these grants are winding down, we are hoping to apply for federal and state grants – Older Adults Home Modification Program or Healthy Homes Grant Program to provide cost-saving opportunities to our residents so they can age in place, particularly for replacement of wells, septic, and roofs; tree removal; mold remediation; or other repairs that would potentially make the property unsafe or unlivable.

Outcome:

Narrative:

Outcome:

Narrative:

PART II: COMPREHENSIVE ASSESSMENT

Purpose:

The purpose of the comprehensive assessment is to capture indicators of accomplishments in each Sustainable Community. Indicators should reflect the five year time period since the adoption of the Sustainable Communities Action Plan. Thus, the following questions focus on the common outcomes that were identified in the various Sustainable Community Action Plans approved by the State. The assessment will be grouped in the sections of Environment, Economy, Transportation, Housing, Quality of Life, and Land Use.

Please answer the following questions to the best of your knowledge.

Check “YES” if applicable to your community. If you answer “YES” please quantify the accomplishment (i.e. Q: Has there been an increase in the number of businesses in your Main Street/commercial district? A: YES 4 new businesses have opened in the past five years). If necessary, please also provide a short description of the accomplishment.

Please check “NO” if the question item did not have any impact on your community. If you answer “NO” please briefly summarize what kept you from achieving your plan’s desired outcomes.

Check “N/A”, if the question item does not apply to your Sustainable Community.

Sustainable Communities Renewal Application - Section C

ENVIRONMENT	YES	NO	N/A	If YES, specify in quantifiable units and compare values from the last five years If NO, why not? What kept you from achieving your plan's desired outcomes?
<p>1. Has there been an improvement in water quality? Have you completed any projects intended to improve water quality? Ex. impervious surface reduction, stormwater improvements etc.</p>	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Repaired and reestablished stormwater conveyance at Cove Point Park in Lusby and Dunkirk District Park in Dunkirk <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • Made stormwater improvements to reduce runoff into the Bay, including requiring a filtering system for parking lot runoff near Mears Ave with new Rod n Reel location development as mitigation. • The town abandoned a failed sewer line along the waterfront. <p>North Beach –</p> <ul style="list-style-type: none"> • No.
<p>2. Have you improved wildlife habitat in your community? Ex. native plantings, pollinator gardens, rain gardens</p>	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Not in the communities designated. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • Planted several native gardens and buffer gardens through the Chesapeake Beach Green Team. • Maintained pollinator gardens and bat boxes along the railway trail. • Held rain barrel workshops in coordination with other jurisdictions. <p>North Beach –</p> <ul style="list-style-type: none"> • Completed a State Highway Mitigation Project in Wetlands Overlook Park, where 144 Native Trees, shrubs, and wildflowers were planted in beds to create a buffer along the edge of the wetlands. • Designed and planted a Pollinator Pathway Garden with volunteers at the Mark R. Frazer Sunrise Garden.
<p>3. Have you increased access to green space, parks or outdoor recreational opportunities?</p>	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Added lines for pickleball courts, extended park hours in the offseason, and added/improved field lighting at ball fields in Lusby and Dunkirk for extended play. • Southern Maryland has been designated as a National Heritage Area, which increases funding to promote tourism, conserve natural landscapes, and enhance the local economy. • Any development in the Solomons Town Center is subject to meeting tree canopy requirements.

Sustainable Communities Renewal Application - Section C

				<p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Added new open hours to the Kellam’s complex whereas it was previously locked, now it is open for public access with the establishment of a recreational division. <p>North Beach –</p> <ul style="list-style-type: none"> Constructed the North Beach Nature Center in Overlook Park. This facility will become the hub of Community Conservation events and programs. Internal displays with live animals, aquariums, kids’ corner, birding, and a science station have been completed. Completed repairs to the Town pier, boat slips, and boardwalk along Atlantic Avenue.
<p>4. Have you implemented operational sustainability practices (example: town hall enhancements) and/or community-based practices? (ex. Rain barrels or rain gardens at residences, recycling, composting etc)</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Parks & Recreation has an Environmental Policy adopted by the Board of County Commissioners. The Solid Waste Division operates a county office building recycling route. Recycling Technicians collect recyclable paper and commingled containers from 48 county office spaces. In addition, residential recyclables are collected at each of the six customer convenience centers in Calvert County. Recyclable materials accepted include mixed paper, commingled containers, metal, rigid plastic, cooking oil, used motor oil and antifreeze, textiles, electronics, rechargeable batteries, lead acid batteries, lightbulbs, and more. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town held rain barrel workshops. The Town supports recycling by providing containers to citizens and provide educational outreach on how to effectively increase recyclable materials. <p>North Beach –</p> <ul style="list-style-type: none"> North Beach has always had a recycling plan, with recycling collected weekly in Town provided recycling bins. In addition to the weekly recycling, the North Beach’s Environmental Committee displayed recycling information for Earth Day Everyday at the Mark R. Frazer Sunrise Garden yearly. A recycling campaign was created with door tags for residents to inform them of items that can be and cannot be recycled.
<p>OTHER:</p>				

Sustainable Communities Renewal Application - Section C

ECONOMY	YES	NO	N/A	If YES, specify in quantifiable units and compare values from the last five years If NO, why not? What kept you from achieving your plan's desired outcomes?
1. Has there been an increase in the number of new businesses in your Main Street/ Commercial District?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Three hundred thirty-three new businesses have opened between 2018-2022. Many of these new businesses have located within Commercial Districts designed as Sustainable communities. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Towns planning and zoning commission established further commercial zoning uses in Town to expand commercial zones and a main street concept. • The Town received several new businesses, such as a popcorn shop, dry cleaners, a coastal Italian kitchen, and a jewelry shop. <p>North Beach –</p> <ul style="list-style-type: none"> • The Town of North Beach has seen some businesses relocate outside the area, and new businesses have taken their place.
2. Did the Municipality/ Sustainable Community area receive any designations that support local economic development?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Portions of the Lusby Town Center are in a Federal Opportunity Zone. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Town received recertification for Sustainable Maryland designation. <p>North Beach –</p> <ul style="list-style-type: none"> • The Town of North Beach received its recertification of the Sustainable Maryland designation in 2021. • The Town still manages the Healthy Living Home program, helping 56 homes since 2019 in Calvert County.
3. Has there been an increase in foot traffic in the Main Street/commercial district?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • New retail offerings, community events, and activities have increased foot traffic in several commercial districts. According to the Calvert County Department of Economic Development, tourism visitor counts have increased by 11% since 2018. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Town of Chesapeake Beach has an increased the level of foot traffic and a considerably higher amount after the reconstruction of the Fishing Creek bridge providing ease of access for cars, boats and pedestrians with wide open lanes and paths. <p>North Beach –</p>

Sustainable Communities Renewal Application - Section C

				<ul style="list-style-type: none"> The Town of North Beach grid creates a walkable community from every section of the Town. The ability to walk in Town creates easier access for residents and guests.
4. Have the number of commercial vacancies decreased?		X		<p>Calvert County Government –</p> <ul style="list-style-type: none"> The commercial vacancy rate has slightly increased from 3.838% in 2018 to 4.702% in 2023. This is still well below the DC metro region rate of 15.293%. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Commercial vacancies have not decreased. <p>North Beach –</p> <ul style="list-style-type: none"> No commercial property sits vacant longer than 90 days in North Beach.
5. Has there been an increase in local jobs within the Sustainable Community for its residents?		X		<p>Calvert County Government –</p> <ul style="list-style-type: none"> There has been a loss of about 1,300 local jobs from 2018 to 2022. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Yes, local employers consistently have job openings, and the Town is home to two major employers for Calvert County: the Rod N Reel Resort and the Chesapeake Beach Water Park. <p>North Beach –</p> <ul style="list-style-type: none"> Yes, local residents have the ability to apply for any position open in the Town.
6. Has there been an increase in workforce development training or other opportunities for connecting potential employees to well-paying jobs?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Several workforce development opportunities and apprenticeship programs exist in partnership with the College of Southern Maryland and the Tri-County Council for Southern Maryland. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Yes, the Town partnered with local businesses to expand the reach of awareness for local work. <p>North Beach –</p> <ul style="list-style-type: none"> There has been an increase in local jobs in Town due to the business establishments which have opened. Several new restaurants/bars have employed individuals along with the influx of summer employment for the Town of North Beach.
OTHER:				

Sustainable Communities Renewal Application - Section C

TRANSPORTATION	YES	NO	N/A	If YES, specify in quantifiable units and compare values from the last five years If NO, why not? What kept you from achieving your plan's desired outcomes?
1. Has the amount of bike trails/paths increased? How many linear feet do the trails cover?		X		<p>Calvert County Government –</p> <ul style="list-style-type: none"> Calvert County recently completed the Dunkirk and Prince Frederick Bikeways Feasibility Study. Implementation of suggested bike paths/connections in Dunkirk and Prince Frederick are being considered through future upgrades. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Yes, the Town has increased bike paths on the Fishing Creek bridge. <p>North Beach –</p> <ul style="list-style-type: none"> The Town has not created any additional trails and or bike paths. The Town currently has approximately one mile of bike paths
2. Have there been improvements to the public transit infrastructure?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Yes, Calvert County recently upgraded their dispatch software. Calvert has increased the number of daily round trips in the Dunkirk, Prince Frederick and Lusby Town Centers. A route evaluation was conducted for the 2021 Transportation Development Plan which provided guidance to implement more productive transit service to the Town Centers. Calvert County Department of Transportation has received funding and coordination with the Maryland Transit Administration for a feasibility study and design for a Transit Transfer Station to be constructed in the Prince Frederick Town Center. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> No. <p>North Beach –</p> <ul style="list-style-type: none"> The Town of North Beach created a municipal parking lot off Bay Avenue after the start of the construction of the Twin Beaches Library. This parking lot was necessary since the State Highway utilized the former municipal lot for commuter buses.
3. Has there been an increase in sidewalks? (Amount in linear feet). Were accessibility elements added, such as more ADA-accessible ramps and signage/signals? Has there	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Yes, approximately 26,970 linear feet of new sidewalk has been added (cumulatively) to the Dunkirk, Prince Frederick, Lusby and Solomons Town Centers. The most notable area of increased pedestrian activity is in the Solomons Town Center. As development occurs, sidewalks have been added to connect existing infrastructure to local amenities. <p>Chesapeake Beach –</p>

Sustainable Communities Renewal Application - Section C

<p>been a noticeable increased use of these walking places?</p>				<ul style="list-style-type: none"> The Town of Chesapeake Beach received updated ADA sidewalks from the State Highway Administration throughout RT 261 and RT 260. <p>North Beach –</p> <ul style="list-style-type: none"> The State Highway Administration upgrades to Route 261 included the installation of ADA-compliant sidewalks between 8th and 9th Street. The Town surveyed all sidewalks and completed repairs to any potential injury/trip hazard locations.
<p>4. Have there been any roadway improvements that support “Complete” or “Green” streets?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> The Calvert and St. Mary’s Metropolitan Planning Organization, which includes the Solomons and Lusby Town Center(s), finalized their Complete Streets Plan in 2021. Calvert County has implemented a portion of one of the suggested planning projects on Appeal Lane in the Lusby Town Center (sidewalks). <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> No <p>North Beach –</p> <ul style="list-style-type: none"> After completing the Rt 261 enhancements, this road will complete a “Green Street.”
<p>5. Has traffic congestion along major roads decreased? (Amount in percent)</p>		<p>X</p>		<p>Calvert County Government –</p> <ul style="list-style-type: none"> No, Calvert County has one major state roadway through the county that serves the northern most community (Dunkirk) to the southern end of the county (Solomons). County staff have been working diligently with the State Highway Administration to complete widening projects in Prince Frederick to help to increase highway capacity. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Fishing creek bridge renovation decreased traffic congestion substantially by removing the bottle neck and providing a turn lane. <p>North Beach –</p> <ul style="list-style-type: none"> No, traffic has not decreased. The Town of North Beach encounters an increase of traffic during peak summer seasons.
<p>OTHER:</p>				

Sustainable Communities Renewal Application - Section C

HOUSING	YES	NO	N/A	If YES, specify in quantifiable units and compare values from the last five years If NO, why not? What kept you from achieving your plan's desired outcomes?
<p>1. Have any residential facades or interiors been improved? Has the energy efficiency of any housing units been increased?</p>	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Housing Authority of Calvert County completed repairs to affordable senior apartments at Calvert Pines I (roof, elevators, doors, brick repairs, alarms/security, vinyl flooring), which supports 58 units, and to Calvert II (flooring, fire pump, new drainage system) which supports 42 units. Housing Authority has spent 1.29 million in energy efficiency upgrades to older housing stock (Calvert Pines I, Calvert Pines II, and Southern Pines I) <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town of Chesapeake Beach coordinated with the Courtyards at Fishing Creek to establish updated sprinkler systems in the town home units that did not require replacement from the recent fire that took two lives. This upgrade brought the other buildings up to the standard of current code to prevent dangers in the future of loss of life. The Town coordinated with the North Beach Volunteer Fire department to make recommendations and coordinated with the owner to ensure implementation. <p>North Beach –</p> <ul style="list-style-type: none"> North Beach Apartments upgraded their roof. Residents have made improvements to their own homes inside and outside.
<p>2. Has the homeownership rate increased?</p>	X			<p>In the past five years in Calvert County, there have been an additional 2,153 owner-occupied units, with a 3.4 % increase in owner-occupied units.</p> <ul style="list-style-type: none"> 27,936 owner-occupied units/ 85.3% owner-occupied, <i>American Community Survey 5 Year Estimates, Selected Housing Characteristics, 2017 – 2021</i> 25,783 owner-occupied units/ 81.9% owner-occupied, <i>American Community Survey 5 Year Estimates, Selected Housing Characteristics, 2012 - 2016</i> <p>Homeownership rate breakouts by Sustainability Area census tract or place:</p> <ul style="list-style-type: none"> Dowell – Increase 72.5% to 87.3% Solomons CDP – Increase 45.7% to 66.6% Lusby CDP – Increase 63% to 77.9% Prince Frederick CDP – Increase 46.6% to 51.7% Town of North Beach – Increase 49.9% to 54.2% Town of Chesapeake Beach – Decrease 75.8% to 73.6% Dunkirk – Decrease 90.5% to 89.9% <p><i>American Community Survey 5 Year Estimates, Homeownership Rate, 2012-16 and 2017-2021 for zip code and CDPs.</i></p>

Sustainable Communities Renewal Application - Section C

				Dowell, Solomons, and Lusby saw significant increases in homeownership rates, likely attributed to landlords selling properties during the pandemic. Prince Frederick also saw an increase in homeownership, despite two major rental developments, Beechtree and Calvert Hills, opening. Chesapeake Beach and Dunkirk saw minor declines.
3. Has there been an increase in the number of housing units in the Sustainable Community area? What number and/or percent are affordable? How many are within .5 miles of a transit stop?				<p>Yes, two apartment complexes have been built in Prince Frederick Town Center, Beachtree and Calvert Hills.</p> <p>The increases have been in the following zip code or census tracts within the Sustainability map from 2016 to 2021 (according to 2021 ACS, 5-year estimates):</p> <ul style="list-style-type: none"> • Dowell – 279 to 497 • Solomons CDP – 1484 to 1580 • Lusby CDP – 747 to 866 (67 affordable senior units opened in June 2018, and they are located along multiple transit routes) • Town of Chesapeake Beach – 2278 to 2542 • Town of North Beach – 1131 to 1143 • Prince Frederick CDP – 1262 to 1362 (96 affordable housing units opened in 2021 and they are located along multiple transit routes.) <p>Only one area saw a decrease in housing units:</p> <ul style="list-style-type: none"> • Dunkirk CDP – 868 to 866
4. Has there been demolition of blighted properties?				<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Of the 2 demolitions performed in the past five years, both were in sustainable community areas but they were not for blight. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • Yes, one demolition of a blighted property. <p>North Beach –</p> <ul style="list-style-type: none"> • Yes, there has been. (Needs updating by zoning office)
5. Has the residential vacancy rate decreased?	X			<p>The number of vacant housing units has decreased by 384 units, with the homeowner vacancy rate decreasing by 0.9%. Even though it is a much smaller share of our housing units, the rental vacancy rate has increased by 4.3%, primarily due to landlords raising rent and evictions related to the pandemic.</p> <ul style="list-style-type: none"> • 2,750 Vacant Housing Units with a 0.5 % Homeowner Vacancy Rate/ 8.2% Rental Vacancy Rate, <i>American Community Survey 5 Year Estimates, Selected Housing Characteristics, 2017-2021</i> • 3,134 Vacant Housing Units with a 1.4 % Homeowner Vacancy Rate/ 3.9% Rental Vacancy Rate, <i>American Community Survey 5 Year Estimates, Selected Housing Characteristics, 2012-2016</i>

Sustainable Communities Renewal Application - Section C

<p>6. Has the jurisdiction partnered with any community development corporations to improve its housing stock, increase the availability of affordable housing, or support those experiencing homelessness or being threatened with eviction? Has the jurisdiction initiated any of its own programs to do the same?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • The Housing Authority of Calvert County partnered with Osprey Development to develop Calvert Hills, which opened in 2021. The property has 96 units of rental housing in Prince Frederick, with 31 units designated as affordable (30, 50, and 60% AMI units). The property was developed using HUD/FHA loan, CDA Home Loan, and private equity Low-Income Housing Tax Credits (LIHTC). • Calvert County Government conveyed property to Calvert Affordable Housing Alliance to develop an affordable single-family home for a veteran, which is currently in design. • A new nonprofit, C4, is working on a development plan to establish an affordable homeownership community with wraparound support for targeted population groups where generational poverty is prevalent (descendants of enslaved people, indigenous peoples, public servants, and the aging population). • Calvert County Government’s Department of Community Resources administered over 5 million in federal and state grant funding for rent and utility assistance, non-congregate sheltering, homeless services, pantry food and kid kit distribution, housing stability services, case management, and a senior nurse program. • In 2022, Calvert County purchased a property in downtown Prince Frederick, using CDBG funds, to develop an Inclement Weather Shelter and Homeless Day Services Program, estimated to open in 2024. • Department of Community Resources created a new Special Projects Manager position to administer capital and technology projects and support grants to address identified human service needs. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Town has coordinated with the Calvert County Health Department to facilitate coordination of transfer to homeless shelter for residents experiencing issues. In addition the Town has coordinated with the Calvert County Public Schools to coordinate services for students in need within the Town. <p>North Beach –</p> <ul style="list-style-type: none"> • The Town of North Beach does not offer these services, but residents may access the service through Calvert County.
<p>7. Has there been an increase in homeownership counseling services or individuals accessing such services?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Using the Community Development Block Grant (CDBG_CV-2-5) Calvert County allocated \$50,000 to support Homeownership Counseling to support 98 clients through Southern MD Tri-County Community Action, Inc. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • No.

Sustainable Communities Renewal Application - Section C

				<p>North Beach –</p> <ul style="list-style-type: none"> • First Fridays in North Beach (Art Fair and Craft Show) • The Town of North Beach continues its summer series of Movies on the Beach, story time in the parks led by the Calvert County Library, and the annual Film Festival. • At the newly constructed North Beach Nature Center, programs related to Native plants, animals, the Chesapeake Bay, and the surrounding ecosystems will be conducted.
<p>4. Have there been any changes in access to health and wellness services? Examples include mobile clinics, hospitals, telehealth opportunities.</p>	<p>X</p>			<p>Calvert County Government – New and expanded health programs include:</p> <ul style="list-style-type: none"> • Two new Health Fair (CalvertHealth) opportunities in Prince Frederick, Women’s Health Fair in May and a Men’s Health Fair in June. • Mobile Health Center (CalvertHealth) provides primary care, dental and prevention care, with visits throughout the county on a weekly basis at churches, schools, libraries, senior centers. • Local Care Team (Community Resources) expanded to state mandated and transitioned to Zoom meetings which allowed for more frequent meetings to meet increased referrals • New Mobile Crisis (Calvert County Health Department) initiated for opioid response and transitioned to meet other crisis needs in conjunction with the Sheriff’s Office. • New Highway to Health (Calvert County Health Department) provides health screenings and links residents to insurance, health educational programs, transportation, case-management, targeting clients with chronic health needs in Lusby, Chesapeake Beach and North Beach. • New Assertive Community Treatment (Cornerstone Southern MD) wraparound and mobile psychiatric care for clients with crisis mental health needs • New Wheels to Wellness (CalvertHealth) provided transit to hospital system clients off the public transportation routes/schedules to meet physician appointments or regular visits to dialysis or chemotherapy. • New travelling senior nurse and case management programs (Office on Aging) for homeless and at-risk of homelessness as part of pandemic response • Behavioral health services (Calvert County Health Department) transitioned to allow opportunities for telehealth in some circumstances. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Town holds an annual Health and Wellness Fair where resources for Health and Wellness are provided at the center of the Town. These services are integrated into all Town events as well as mental health and opioid abuse services. <p>North Beach –</p>

Sustainable Communities Renewal Application - Section C

				<ul style="list-style-type: none"> The Town of North Beach has partnered with CalvertHealth and they bring their mobile health van to Town on a regular basis.
<p>5. Are there any residential health and wellness opportunities in place (i.e. athletic facilities, recreational indoor/outdoor courses or groups)?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> All activities and events offered by CCPR and Office on Aging are coordinated and promoted through a quarterly activity guide mailed to all residents and available electronically. This includes special events, programs, activities, volunteer opportunities, and educational sessions. Facilities include parks, pools, a golf course, and community centers. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town of Chesapeake beach hosts hundreds of youth recreational practices and games on the Kellams complex. The Town hosts summer camps from the Calvert County Parks and Recreation on the Kellams complex. <p>North Beach –</p> <ul style="list-style-type: none"> The Town of North Beach welcomes over 200,00 guests each summer to the beach. The waterfront is the perfect location to get in your steps on the boardwalk or swim some laps in the Bay. The Town has re-vamped its summer events, implementing our First Fridays from May to October. This event has replaced the every Friday Night Farmer’s Market. The Town’s Farmer’s Market has been moved to Saturday mornings, giving the feel of a hometown market with vendors selling their fruits, vegetables, plants, baked goods, meats, and cheeses. At the market, the vendors are always excited to engage with their customers providing tips and tricks to preparing healthy meals with local products. North Beach continues its other events, such as the annual polar bear plunge, movies on the beach, and Halloween and Christmas Events. All activities bring residents and guests out to enjoy the beauty of North Beach.
<p>6. Do all residents have access to healthy food options such as fresh food grocery stores, farmers markets, community gardens, etc., within the Sustainable Community?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> The Calvert County Farmers Market Association offers “producers only” markets in Prince Frederick, Dunkirk and Lusby. All vegetables, fruits, herbs, tree nuts, meats, flowers, plants and other products sold at the markets must be grown or produced by a local farmer or vendor. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town markets the local farmers markets through North Beach and the County. <p>North Beach –</p> <ul style="list-style-type: none"> The Town of North Beach has revamped the North Beach Farmer’s Market. The market is held Saturday mornings from 8 am to 11 am in the North Beach Senior

Sustainable Communities Renewal Application - Section C

				<p>Center parking lot. You can purchase fresh fruits and vegetables, meats, baked items, local cheese, and honey at the market.</p> <ul style="list-style-type: none"> • Along with the Town of North Beach, the local food pantry run by the Calvert County Ladies of Charity distributes fresh food to seniors and families in need twice a week.
7. Has there been a decrease in crime rate?	X			<p>There has been a significant decrease in the crime rate in Calvert County since the County's last designation renewal. Based on the Uniform Crime Reports (UCR) data, Part I Crimes decreased from 1086 per 100,000 residents in 2017 to 624 per 100,000 residents in 2022. This is a decrease of 42.5% over five years.</p>
8. Do all residents have access to the Internet and other basic utilities and services?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> • Through a public/private partnership with Comcast, the BOCC has made significant investments in expanding services throughout the county to ensure everyone has access to the opportunities and resources the internet provides. A grant awarded to Comcast through the state's Connect Maryland Network Infrastructure Grant Program will expand broadband access to an additional 36 homes in the county and add nine miles of infrastructure. • Calvert County is home to approximately 90,000 residents. The majority of county residents are served by private water systems, individual wells and traditional septic systems. Public water and sewerage service is provided to pocket communities and town centers through the Water and Sewerage Division. The county's wastewater system is comprised of 5 wastewater treatment plants, 47 wastewater pump stations, 32 miles of force main and 34 miles of gravity sewer outfalls. The water system is comprised of 19 water systems, 77 miles of water main, 14 elevated storage tanks, and 7 hydropneumatic tanks. • The Solid Waste Division monitors the operation of the Appeal Landfill, Appeal Transfer Station, six convenience center locations, recycling activities, a bulk item pick-up program and environmental monitoring for the Appeal and Barstow landfills. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> • The Town extends offerings of public internet access through the Twin Beaches Library. <p>North Beach –</p> <ul style="list-style-type: none"> • The Town of North Beach currently has a franchise agreement with Comcast which offers internet services. Residents have the opportunity to enroll in their services. The Town has several public wi-fi locations for public use.

LOCAL PLANNING & STAFFING CAPACITY	YES	NO	N/A	If YES, specify in quantifiable units and compare values from the last five years If NO, why not? What kept you from achieving your plan’s desired outcomes?
1. Have there been any infill developments?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> Since 2018, many properties in the Dunkirk, Prince Frederick, Lusby, and Solomons Sustainable Community designated areas have been developed as infill or redevelopment projects. Examples include commercial properties along West Ward Road in the Dunkirk Town Center; commercial properties along MD 2/4 and residential development along Prince Frederick Blvd. in Prince Frederick Town Center; and commercial and residential properties on Solomons Island and residential development in the Avondale and Dowell peninsula areas in the Solomons Town Center. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> Several lots have been utilized for infill considering the low inventory of developable land in the Town. The board of appeals has reviewed and approved changes on lots to make them developable. <p>North Beach –</p> <ul style="list-style-type: none"> The only project in The Town of North Beach is the construction of the new Twin Beach Library located at the corner of 5th and Chesapeake Avenue.
2. Has there been an increase in the amount of preserved/protected land?	X			<p>Calvert County Government –</p> <ul style="list-style-type: none"> In 2017, there were 27,702 acres preserved through county and state preservation programs. As of January 17, 2023, there were 32,187 acres preserved. The county has received Maryland Board of Public Works approval to expand the Northern Calvert and Calvert Creeks Rural Legacy Areas, so now more properties are eligible to participate in this Maryland Department of Natural Resources land preservation program. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town’s Planning and Zoning Commission protected over 300 additional acres of land under Resource Conservation (RC) zoning. <p>North Beach –</p> <ul style="list-style-type: none"> The Town of North Beach has not acquired any additional land.
3. Have there been any developments hindered by	X			<p>Calvert County Government –</p>

Sustainable Communities Renewal Application - Section C

<p>growth constraints? If so, please describe. Example constraints could be inadequate infrastructure, insufficient zoning density/intensity, or lack of buildable land.</p>			<ul style="list-style-type: none"> Adequate Public Facilities (APF) regulations are a growth management tool that facilitates orderly development and growth in accordance with a comprehensive plan. Calvert County adopted APF regulations for roads and schools in 1988. The Calvert County Comprehensive Plan, adopted in 2019 and amended in 2022, includes actions to consider potential changes to the APF regulations for roads, to periodically review the APF regulations for schools and adjust if necessary, and to consider expanding the regulations to include water & sewer; stormwater management; solid waste & recycling; fire, rescue and emergency management services (EMS); and law enforcement services. After presentations and work sessions with the Board of County Commissioners (BOCC) and the Planning Commission (PC), the BOCC and PC held a joint public hearing on November 29, 2022. The BOCC adopted the APF requirements. With this adoption, Calvert County Government is enabled to provide adequate public facilities in a timely manner and achieve the controlled growth objectives of the Comprehensive Plan. Over the past five years, areas in the northern part of the county, including the Dunkirk Town Center, have had school districts over 100 percent of APF capacity. Thus, these areas have been closed to recording residential subdivisions and developments. Such projects can proceed once adequate capacity or six years have passed. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Planning and Zoning Commission and Town Council recently adopted a building height restriction that limits development. The Commission and Council also adopted a minimum lot size which also limits development. These actions were in direct response to citizens feeling that the Town was becoming over developed and crowded and wanting to limit additional development. <p>North Beach –</p> <ul style="list-style-type: none"> None at this time.
<p>4. Have there been any zoning or policy changes that have fostered growth or redevelopment in your Sustainable Community?</p>	<p>X</p>		<p>Calvert County Government – Calvert County has had several Zoning ordinance amendments that have fostered growth in our Sustainable Communities. The Transfer of Development Rights (TDR) program also focuses growth in the Town Centers, including Prince Frederick, Lusby, Solomons, and Dunkirk.</p> <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> All changes have been to limit growth. <p>North Beach –</p> <ul style="list-style-type: none"> None at this time.
<p>5. Have there been any significant improvements to the municipal infrastructure</p>	<p>X</p>		<p>Calvert County Government – Refer to the Transportation and Environment sections for Dunkirk, Prince Frederick, Lusby, and Solomons Sustainable Community designated areas.</p> <p>Chesapeake Beach –</p>

Sustainable Communities Renewal Application - Section C

<p>within the Sustainable Community (i.e. street lighting, water/sewer lines)?</p>				<ul style="list-style-type: none"> The Town has invested in new lighting throughout the Town. The Town has upgraded water/ sewer lines where there were failed saddles to prevent down time of services. <p>North Beach –</p> <ul style="list-style-type: none"> None at this time. 																																																																						
<p>6. Have you hired any new staff members, reassigned duties, or procured the services of a contractor to increase or better align local capacity? Have you implemented any professional development programs?</p>	<p>X</p>			<p>Calvert County Government –</p> <p>Planning & Zoning Hires: 2018 - 2023</p> <table border="1"> <thead> <tr> <th>Positions</th> <th>2018</th> <th>2019</th> <th>2020</th> <th>2021</th> <th>2022</th> <th>2023</th> </tr> </thead> <tbody> <tr> <td>Director</td> <td></td> <td></td> <td></td> <td>1</td> <td></td> <td></td> </tr> <tr> <td>Deputy Director</td> <td></td> <td></td> <td>2</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Planning Commission Adm</td> <td></td> <td></td> <td>1</td> <td></td> <td>1</td> <td></td> </tr> <tr> <td>Principal Planner</td> <td>2</td> <td></td> <td>1</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Planner II</td> <td>1</td> <td></td> <td>4</td> <td>1</td> <td>4</td> <td></td> </tr> <tr> <td>Planner III</td> <td>1</td> <td></td> <td>3</td> <td></td> <td>1</td> <td>1</td> </tr> <tr> <td>Zoning Planner</td> <td></td> <td></td> <td>1</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Environ. 				<p>North Beach –</p> <ul style="list-style-type: none"> The Town of North Beach has not hired any additional staff. Staff duties have been reassigned and aligned to fulfill the Town's needs.
<p>7. Has your community initiated or completed any planning efforts that will support the Sustainable Community area, including comprehensive planning, small area planning, or planning studies?</p>	<p>X</p>			<p>Calvert County Government –</p> <ul style="list-style-type: none"> An updated <i>Calvert County Comprehensive Plan</i> was adopted in 2019, replacing the 2010 plan. In addition, the <i>Comprehensive Plan</i> was amended in December 2022. Amendments reduced or eliminated future expansion areas for four Town Centers, of which three are designated Sustainable Communities: Prince Frederick, Lusby, and Solomons. Regarding small area plans, County Government initiated the updates to the master plans for two Town Centers: Prince Frederick in 2020 and Dunkirk in 2021. The <i>Calvert County Transportation Plan</i> was adopted in 2020. Calvert County and St. Mary’s County worked together on the Complete Streets Study for the Calvert—St. Mary’s Metropolitan Planning Organization (MPO). The plan was completed in 2021. The MPO area encompasses the Lusby-Solomons-Lexington Park area. Calvert County is nearing completion of the Dunkirk and Prince Frederick Town Centers Bikeways Feasibilities Study, funded in part by a grant from the Maryland Department of Transportation. <p>Chesapeake Beach –</p> <ul style="list-style-type: none"> The Town just completed the 2040 Comprehensive Plan updating the Zoning Text extensively. <p>North Beach –</p> <ul style="list-style-type: none"> The North Beach Planning Commission is in the beginning stages of completing an update to the North Beach Comprehensive Plan.
